

Interactive Fun: Farm Trivia

To teach children (and by extension, adults!) about crops and farm animals by asking them age appropriate trivia questions.

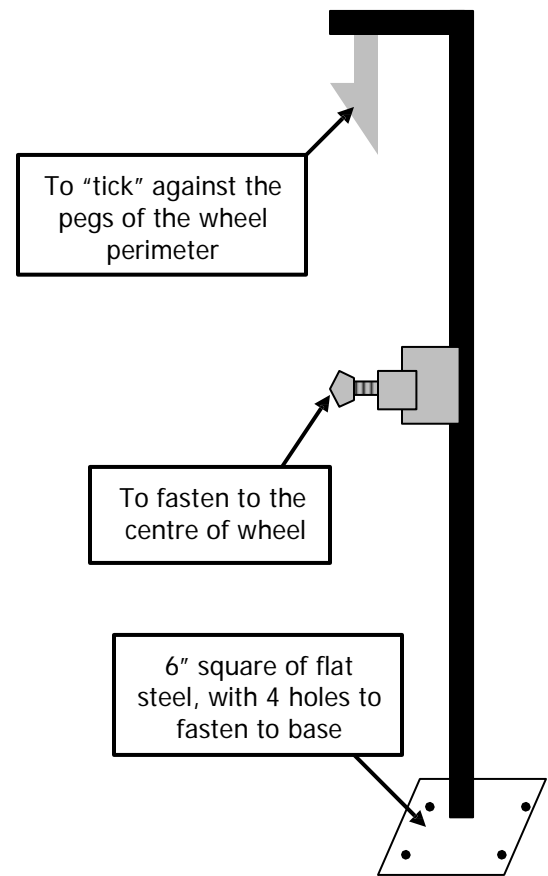

- A trivia wheel (see instructions below) or other category selection system – be creative!
 - An index card box & index cards
 - Trivia questions
 - An eager volunteer to ask questions at the trivia wheel
 - Small prizes
-
- **WARNING:** This activity is VERY popular and requires an energetic volunteer!
 - Crouching down to child-level will help you seem less intimidating to shyer children.
This activity is not meant to be a test!
 - hints from older siblings or parents. Give hints or encourage children to get
-
- Use a mounted bicycle tire as a replacement for the wooden wheel.
Use a large dice with each face representing a different category.
 - Sew extra pockets to an old pair of overalls and place cards representing the categories in each pocket.

- Important Considerations:
 - The wheel should be sturdy enough that it won't tip over.
- Materials
 - ½" plywood
 - 1 ¼" tube steel (indicated by black in diagrams below)
 - 1/8" flat steel (indicated by white in diagrams below)
 - 28 bolts/wooden pegs
 - Scrap rubber or wood to make a "ticker"
 - Paint or a sign to divide the wheel into category sections
- Components
 - Wheel: 30" circle cut from ¾" plywood, ¾" hole in the centre, 28 - ¼" holes around the perimeter with bolts/wooden pegs in them as handles for spinning.
