Wallenstein Feed & Supply Ltd.**

"Wallenstein Feed & Supply (WFS) has been a loyal supporter and member of Farm & Food Care Ontario (FFCO) for as long as the organization has existed. The FFCO mission to work with Ontario farmers and food partners to earn public trust in Ontario food and farming is one that we are proud to help them champion.

Agriculture is not just an industry; it is a community. As a strong member of the agricultural community in Ontario, we have enjoyed working with FFCO on their various events and initiatives, such as Breakfast from the Farm, FarmFood360, and The Real Dirt on Farming. Our employees enjoy attending the annual Harvest Gala in support of FFCO, and recent fundraisers like Garden in a Box have also been well received.

The WFS motto is "Feeding Success", and by supporting organizations such as FFCO, we are feeding our customers' success by not only investing in them, but in their customer base as well. Our customers have an exciting story of hard work, passion, and dedication to share with urban consumers, who every single day get further and further removed from agriculture and farming. FFCO ensures their stories are heard.

It has been a pleasure to partner with Farm & Food Care Ontario for the past decade. We look forward to a strong, continued partnership for years to come."
