

**Supporter level member:  
Paris Agricultural Society**

"The Vision of the Paris Agricultural Society is to engage, educate and promote agricultural awareness in the community. What better way to do so than to partner with Farm & Food Care Ontario.

Since 1858, our Society has hosted the annual Paris Fair on Labour Day weekend. We can proudly state that thousands of visitors enjoy carnival rides, concerts and family entertainment each year; however, at heart we remain an agricultural fair. We have five full days of equestrian, cattle, sheep and goat competitions as well agricultural displays and exhibits. Our Agricultural Awareness pavilion values the many Farm & Food Care resources that are used to educate many who were unaware of "where our food comes from".

Our shared goal to provide education to both agricultural and urban members of our community has meant a newfound beneficial partnership. Being an active member of Farm & Food Care helps bridge the gap between urban and rural. We look forward to hosting another annual fair this fall of 2022 and welcoming visitors to the Paris Fairgrounds – "the place where friends meet"."

Cheryl Muir, Manager of the Paris Agricultural Society, Home of the Paris Fair.
