Clark AG Systems**

Since 1925, The Clark Companies have been serving the agricultural community and working our own farms to produce vital cash crops and fresh healthy poultry products for Canada. We know agriculture and have for four generations now. So for us, it was a perfect fit to team up with Farm & Food Care to not only support this valuable organization to the industry, but to help them educate and spread the word about agriculture to the general public who rely on us and our peers.

We love the work that the team at Farm & Food Care do as an advocate for farmers and the many issues we face as an industry. Farm & Food Care dives deep into our business on every level, and truly understands the complexity of the issues we face across all genres of agri-business. They speak professionally and intelligently on our behalf to all the right groups and the general public, in ways that everyone will understand. Farm & Food Care also makes agriculture fun!

We look forward to growing with this incredible group as the agricultural industry evolves with technology and regulation for many years to come! Many thanks to the whole team at Farm & Food care for a great job!

Brad Mandryk, President, Clark Ag Systems & Clark Agri Service
