Turkey Farmers of Ontario

Turkey Farmers of Ontario (TFO) represent about 155 turkey farmers across the province. As a smaller organization, we work with partners like Farm and Food Care Ontario to allow us access to larger audiences with essential information about agriculture.

We value our partnership with FFCO as it provides opportunities to collaborate and provide credible information about farming and where food comes from to those unfamiliar with the industry. We enjoy participating in Breakfast on/from the Farm events, engaging with the public and answering any questions about the turkey industry. Our friendly mascot Wishbone enjoys joining us to represent our turkey farmers and bring smiles to those who meet him.
